ABOUT US

IT

Abbiamo costituito la società MPC srl a Milano in Italia nel 1996 e da allora studiamo, progettiamo, realizziamo e distribuiamo prodotti di qualità all'avanguardia nel Design e nell'Innovazione.

La cura nella selezione dei prodotti è per noi di MPC una scelta di vita e abbiamo deciso di concentrarci su una gamma di prodotti green ed ecosostenibili.

MPC è un nuovo marchio nato per soddisfare una domanda esistente sul mercato: prodotti di qualità e innovativi per il comfort in giardino, in piscina e all'aperto, ma con una forte attenzione alla sostenibilità e al risparmio idrico ed energetico.

In MPC scegliamo accuratamente le materie prime in modo di realizzare prodotti altamente resistenti all'invecchiamento e agli agenti atmosferici, semplici da installare e facilmente smontabili per riporli al coperto ed evitare i danni invernali.

In MPC curiamo ogni più piccolo dettaglio anche nella meccanica interna come tubature ad alta pressione e miscelatori ceramici per evitare rotture ed incidenti.

In questi anni di attività abbiamo ascoltato con attenzione le richieste degli utilizzatori finali dei nostri prodotti e fatto tesoro dei loro suggerimenti e delle loro lamentele.

Ogni singolo prodotto MPC viene testato prima di essere imballato.

La cura nell'imballo MPC è importante per affrontare al meglio i vari mercati commerciali sia tradizionali che online.

In MPC affidiamo le certificazioni dei prodotti ad enti italiani o esteri riconosciuti.

In MPC studiamo e collaboriamo con i nostri rivenditori per sviluppare il loro mercato, se richiesto possiamo produrre linee con i loro marchi e studiare insieme le migliori politiche di marketing.

Grazie alla struttura informatica cloud integrata in MPC gestiamo disponibilità e consegne in tempo reale e un servizio garanzia e assistenza puntuale e sempre disponibile.

Offriamo una logistica attiva h24 per la gestione degli ordini con vasto assortimento di merce e di ricambi ed accessori anche fuori stagione.

Lavorare con MPC è facile!

EN

We established MPC srl in Milan, Italy in 1996 and have been studying, designing, manufacturing and distributing quality products at the forefront of Design and Innovation ever since.

Attention in product selection is a lifestyle choice for us at MPC, and we have decided to focus on a range of green and environmentally sustainable products.

MPC is a new brand created to meet an existing demand in the market: quality and innovative products for garden, pool and outdoor comfort, but with a strong focus on sustainability and water and energy saving.

At MPC we carefully choose raw materials so that we make products that are highly resistant to aging and weather agents, simple to install, and easily disassembled to store them indoors and avoid winter damages.

At MPC, we also take care of every little detail in the internal mechanics such as high-pressure piping and ceramic mixers to avoid breakage and accidents.

During these years of activity, we have listened carefully to the requests of the end users of our products and treasured their suggestions and complaints.

Every single MPC product is tested before packaging.

MPC packaging care is important in order to best address the various commercial markets both traditional and online.

In MPC we commit product certifications to recognized Italian or foreign companies.

In MPC we study and collaborate with our retailers to develop their market, if required we can produce lines with their brands and study together the best marketing policies.

Thanks to the cloud IT structure integrated in MPC we manage real time availability and deliveries just in time and always available warranty and support service.

We offer h24 active logistics for order management with wide assortment of goods and spare parts and accessories even out of season.

Working with MPC is easy!

ES

Establecimos y fundamos la tienda MPC S.r.l. en Milán, Italia, en 1996 y desde entonces estudiamos, diseñamos, fabricamos y distribuimos productos de calidad a la vanguardia del diseño e innovación.

La selección cuidadosa de los productos es una elección de estilo de vida para nosotros en MPC y hemos decidido centrarnos en una gama de productos "green", ecológicos y sostenibles.

Hemos creado nuestra propia marca "MPC" para satisfacer una demanda existente en el mercado: productos innovadores y de calidad para el confort del jardín, la piscina y el exterior, pero con un fuerte enfoque en la sostenibilidad y el ahorro de agua y energía.

En MPC S.r.l. elegimos cuidadosamente las materias primas para fabricar productos altamente resistentes al deterioro ambiental, sencillos de instalar y fáciles de desmontar para almacenarlos en el interior y evitar los daños del invierno.

Cuidamos hasta el más mínimo detalle, incluso en la mecánica interna, como las tuberías de alta presión y los mezcladores de cerámica, para evitar malfuncionamientos o accidentes.

A lo largo de los años, hemos escuchado atentamente las peticiones de los usuarios de nuestros productos y tenemos en cuenta sus sugerencias y quejas.

Cada uno de los productos de MPC se somete a pruebas antes de ser embalado.

El cuidado de los embalajes de los productos MPC es importante para dirigirse mejor a los distintos mercados comerciales, tanto tradicionales como en línea.

En MPC las certificaciones de los productos son emitidas por organismos italianos y extranjeros reconocidos.

Estudiamos y colaboramos con nuestros minoristas para desarrollar su mercado, si es necesario podemos producir líneas con sus marcas y estudiar juntos las mejores políticas de marketing.

Gracias a la estructura informática en la nube integrada en MPC, gestionamos la disponibilidad y las entregas en tiempo real y un servicio de garantía y asistencia puntual y siempre disponible.

Ofrecemos una logística de 24 horas para la gestión de pedidos con un amplio surtido de mercancías, repuestos y accesorios, incluso fuera de temporada.

Trabajar con MPC es fácil.

Wir haben MPC srl 1996 in Mailand, Italien, gegründet und beschäftigen uns seither mit der Entwicklung, dem Design, der Herstellung und dem Vertrieb von Qualitätsprodukten, die in Bezug auf Design und Innovation führend sind.

Eine sorgfältige Produktauswahl ist für uns bei MPC eine Grundeinstellung, und wir haben beschlossen, uns auf eine Reihe von grünen und umweltfreundlichen Produkten zu konzentrieren.

MPC ist eine neue Marke, die geschaffen wurde, um eine bestehende Marktnachfrage zu befriedigen: Hochwertige und innovative Produkte für Garten, Pool und Outdoor-Komfort, aber mit einem starken Fokus auf Umweltverträglichkeit sowie Wasser- und Energieeinsparung.

MPC wählt die Rohstoffe sorgfältig aus, um Produkte herzustellen, die sehr alterungs- und witterungsbeständig, einfach zu montieren und leicht zu demontieren sind, um sie in Innenräumen zu lagern und Winterschäden zu vermeiden.

Bei MPC achten wir auf jedes noch so kleine Detail, auch bei der internen Technik wie Hochdruckleitungen und Keramikmischern, um Brüche und Unfälle zu vermeiden.

Im Laufe der Jahre haben wir ein offenes Ohr für die Wünsche der Endverbraucher unserer Produkte gehabt und ihre Anregungen und Beschwerden berücksichtigt.

Jedes einzelne MPC-Produkt wird getestet, bevor es verpackt wird. Eine sorgfältige Verpackung ist bei MPC besonders wichtig, um die verschiedenen Handelsmärkte, sowohl die traditionellen als auch die Online-Märkte, besser ansprechen zu können.

Bei MPC beauftragen wir anerkannte italienische oder ausländische Prüfstellen mit der Produktzertifizierung.

Bei MPC untersuchen und arbeiten wir mit unseren Einzelhändlern zusammen, um ihren Markt bestens zu entwickeln. Bei Bedarf können wir Produktreihen mit ihren Marken produzieren und gemeinsam die besten Marketingstrategien untersuchen.

Dank der in MPC integrierten Cloud-IT-Struktur verwalten wir die Verfügbarkeit und die Lieferungen in Echtzeit sowie einen pünktlichen und stets verfügbaren Garantie- und Kundendienst.

Wir bieten eine 24-Stunden-Logistik für die Auftragsabwicklung mit einem breiten Sortiment an Waren sowie Ersatzteilen und Zubehör, auch außerhalb der Saison.

Die Arbeit mit MPC ist einfach!

Nous avons créé MPC srl à Milan, en Italie, en 1996 et, depuis, nous recherchons, concevons, fabriquons et distribuons des produits de qualité de pointe du design et de l'innovation.

La sélection minutieuse des produits est un choix de vie pour MPC et nous avons décidé de nous concentrer sur une gamme de produits verts et écologiques.

MPC est une nouvelle marque née pour répondre à une demande existante du marché : des produits de qualité et innovants pour le jardin, la piscine et le confort extérieur, mais avec un fort accent sur la durabilité et les économies d'eau et d'énergie.

Chez MPC, nous choisissons soigneusement les matières premières pour fabriquer des produits très résistants au vieillissement et aux intempéries, simples à installer et faciles à démonter pour les stocker à l'intérieur et éviter les dommages de l'hiver.

Chez MPC, nous prenons soin de chaque petit détail, même dans la mécanique interne, comme la tuyauterie haute pression et les mélangeurs en céramique, afin d'éviter les ruptures et les accidents.

Au cours de ces années, nous avons écouté attentivement les demandes des utilisateurs finaux de nos produits et gardé précieusement leurs suggestions et leurs plaintes.

Chaque produit MPC est testé avant d'être emballé.

Il est important pour MPC de soigner le conditionnement afin de mieux s'adresser aux différents marchés commerciaux, tant traditionnels qu'en ligne.

Chez MPC, nous confions la certification des produits à des organismes italiens ou étrangers reconnus.

Chez MPC nous étudions et collaborons avec nos revendeurs pour développer leur marché, si nécessaire nous pouvons produire des lignes avec leurs marques et étudier ensemble les meilleures politiques de marketing.

Grâce à la structure informatique cloud intégrée à MPC, nous gérons la disponibilité et les livraisons en temps réel et un service de garantie et d'assistance ponctuel et toujours disponible.

Nous offrons une logistique 24 heures sur 24 pour la gestion des commandes avec un large assortiment de marchandises et de pièces détachées et accessoires, même hors saison.

Travailler avec MPC est facile !
